This ebook will never be effortless to get started on studying but extremely fun to read through. It is actually written in easy phrases and never difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

The University of Chicago Press, United States, 2014. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book. Stories abound about the lengths to which middle- and upper-middle-class parents will go to ensure a spot for their child at a prestigious university. From the Suzuki method to calculus-based physics, from AP tests all the way back to early-learning Kumon courses, students are increasingly pushed to excel, with that Harvard or Yale acceptance letter held tantalizingly in front of them. And nowhere is this drive more apparent than in our elite secondary schools. In *Class Warfare*, Lois Weis, Kristin Cipollone, and Heather Jenkins go inside the ivy-yearning halls of three such schools to offer a day-to-day, week-by-week look at this remarkable drive toward college admissions and one of its most salient purposes: to determine class. Drawing on deep and sustained contact with students, parents, teachers, and administrators at three iconic secondary schools in the United States, the authors unveil a formidable process of class positioning at the heart of the college admissions process. They detail the ways students and parents exploit every opportunity and employ every bit of cultural, social, and economic capital they can in order to gain admission into a Most Competitive or Highly Competitive Plus university. Moreover, they show how admissions into these schools - with their attendant rankings - are used to lock in or improve class standing for the next generation.
