A fascinating look at the secret sauce of leadership-learning to assist and give recognition to others while suspending your own need for credit Whether you re starting a new business or running a Fortune 100 firm, finding success as a leader requires a monumental shift in the way you approach your business and your employees. We are born thinking about me -it s a survival thing. But the leadership journey requires a shift from thinking first about ourselves to thinking first about others and their part in any effort in which we are involved. The Shift from One to Many helps you move into a leadership role with grace and ease by mastering three essential skills: facilitating the output of others, giving them recognition, and relinquishing your own need for praise in the process. On a four-stage journey through the leadership continuum, you ll learn how to Recognize and manage the self-interested mentality of the Me Stage in yourself and others Share credit in the Us Stage when working with or leading a team Facilitate the output of others and minimize the need for acknowledgment in the Letting Go Stage Focus exclusively on others and share your expertise without any desire for personal recognition in the Giving Away the Gold Stage With a wise and discerning approach to workplace relations, the author demonstrates how professional altruism can guide the trajectory of your career, helping you find greater satisfaction and success as a truly exceptional leader.
