ATMOSPHERIC PRESSURE PLASMA-ASSISTED LASER ABLATION OF OPTICAL GLASSES

Cuvillier Verlag Okt 2014, 2014. Buch. Book Condition: Neu. 213x147x7 mm. Neuware - In the present work, two different approaches for atmospheric pressure plasma-assisted ablation of optical glasses were investigated. For sequential plasma-assisted ablation, the glasses were plasma pre-treated prior to laser ablation. Here, a hydrogenous process gas was applied in order to initiate a plasma-chemical surface modification. It was shown that relevant optical properties and in particular the transmission characteristics of the investigated glasses were modified as a result...

Reviews

A brand new e book with an all new perspective. It can be rally fascinating throuh reading period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Kobe Streich I**

I actually started looking at this publication. It normally is not going to expense a lot of. You are going to like the way the author publish this book.
